

## Bronnenlijst Handreiking Natuurdaken (2019)

Hieronder vindt u de lijst van bronnen van de Handreiking Natuurdaken die is samengesteld door het werkspoor Biodiversiteit van de Green Deal Groene Daken.

Deze bronnen zijn gedurende het proces van het opstellen van de Handreiking Natuurdaken geraadpleegd. Een deel van de bronnen is direct verwerkt of doorvertaald. Een ander deel is omwille van de leesbaarheid uitsluitend als achtergrondinformatie of studiemateriaal gebruikt.

De Handreiking zelf kun je downloaden via: [www.greendealgroenedaken.nl/biodiversiteit](http://www.greendealgroenedaken.nl/biodiversiteit).  
Vragen kun je stellen aan [info@greendealgroenedaken.nl](mailto:info@greendealgroenedaken.nl).

Alexandri, E. & Jones, P. (2008). *Temperature decreases in an urban canyon due to green walls and roofs in diverse climates*. Building and Environment **43**, p. 480 – 493.

Baumann, N. (2006). *Green roofs and Biodiversity: ground-nesting birds on green roofs in Switzerland: Preliminary observations*. Urban Habitat **4**, fall, 2006.

Blacquière T., Van Der Steen, J.J.M., Cornelissen, A.C.M. (2009). *Visie bijenhoudery en insectenbestuiving: Analyse van bedreigingen en knelpunten*. Wageningen. Plant research International B.V. Alterra-rapport 227.

Blank, L., Vasl, A., Levy, S., Grant, G., Kadas, G., Dafni, A. & Blaustein, L. (2013). *Directions in green roof research: A bibliometric study*. Building and Environment **66**, p. 23 – 28.

Blanusa, T., Vaz Monteiro, M.M., Fantozzi, F., Vysini, E., Li, Y. & Cameron, R.W.F. (2013). *Alternatives to Sedum on green roofs: Can broad leaf perennial plants offer better 'cooling service'?* Building and Environment **59**, p. 99 – 106.

Bowler, D.E., Buyung-Ali, L., Knight, T.M. & Pullin, A.S. (2010). *Urban greening to cool towns and cities: A systematic review of the empirical evidence*. Landscape and Urban Planning **97**, p. 147 – 155.

Brenneisen, S. (2003). *The benefits of biodiversity from green roofs: Key design consequences, 1st North American Green Roof Conference: Greening rooftops for sustainable communities*. The Cardinal Group, Toronto, Chicago, p. 323 – 329.

Brenneisen, S. (2004). *Green roofs – how nature returns to the city*. Acta Horticulturæ **643**, p. 289 – 293.

Brenneisen, S. (2006). *Space for Urban Wildlife: Designing green roofs as habitats in Switzerland*. Urban Habitats **4**, p. 27 – 36.

Broks, K & van Luijelaar, H. (2015). *Groene daken nader beschouwd: Over de effecten van begroeide daken in breed perspectief met de nadruk op de stedelijke waterhuishouding*. Stichting RIONED en STOWA, rapportnummer 2015 – 12. ISBN 978 90 5773 674 2.

Burghardt, K.T., Tallamy, D.W. & Shriver, G.W. (2007). *Impact of native plants on bird and butterfly biodiversity in suburban landscapes*. Conservation Biology **23**, p. 219 – 224.

Chamberlain, D.E., Cannon, A.R. & Toms, M.P. (2004). *Associations of garden birds with gradients in garden habitat and local habitat*. Ecography **27**, p. 589 – 600.

Coffman, R.R. & Waite, T. (2011). *Vegetated roofs as reconciled habitats: Rapid assays beyond mere species count*. Urban Habitats **6**, juli, 2011.

Cook-Patton, S.C. & Bauerle, T.L. (2012). *Potential benefits of plant diversity on vegetated roofs: A literature review*. Journal of Environmental Management **106**, p. 85 – 92.

Cunningham, C & Liebezeit, J. (2015). *Portland's Ecoroof Avian Monitoring Project 2012-14: Final report*.

Currie, B.A. & Bass, B. (2008). *Estimates of air pollution mitigation with green plants and green roofs using the UFORE model*. Urban Ecosystems **11**, p. 409 – 422.
